ORDER OF OPERATIONS WORD PROBLEMS

Name: ..... **Date:** .....

Write ONE expression for each problem, using parentheses if you need them, then work it out in the right order and answer with a unit.

1. Mia buys 3 packs of pens with 4 pens in each pack, plus 5 loose pens. How many pens does she have?

2. A bus has 12 rows of 4 seats. On Monday 9 seats were empty. How many people were on the bus?

3. Sam has $40. He buys 3 books at $6 each. How much money is left?

4. Twenty-four cookies are shared equally by 6 friends, then each friend gets 2 more. How many cookies does each friend have?

5. A garden has 5 rows. Each row has 6 red tulips and 4 yellow tulips. How many tulips in the garden?

6. Leo reads 8 pages a day for 5 days, then reads 15 pages on Saturday. How many pages in total?

Worked example: "2 boxes of 6 eggs plus 3 more eggs" is 2 × 6 + 3 = 15 eggs. "2 boxes that each hold 6 eggs and 3 apples" is 2 × (6 + 3) = 18 items. Parentheses show what belongs together.

ORDER OF OPERATIONS WORD PROBLEMS ANSWER KEY

Name: ..... **Date:** .....

Answer key: one expression and its value for each problem.

1. Mia buys 3 packs of pens with 4 pens in each pack, plus 5 loose pens. How many pens does she have?

3 × 4 + 5 = 17 pens

2. A bus has 12 rows of 4 seats. On Monday 9 seats were empty. How many people were on the bus?

12 × 4 − 9 = 39 people

3. Sam has $40. He buys 3 books at $6 each. How much money is left?

40 − 3 × 6 = 22 dollars

4. Twenty-four cookies are shared equally by 6 friends, then each friend gets 2 more. How many cookies does each friend have?

24 ÷ 6 + 2 = 6 cookies

5. A garden has 5 rows. Each row has 6 red tulips and 4 yellow tulips. How many tulips in the garden?

5 × (6 + 4) = 50 tulips

6. Leo reads 8 pages a day for 5 days, then reads 15 pages on Saturday. How many pages in total?

8 × 5 + 15 = 55 pages

Worked example: "2 boxes of 6 eggs plus 3 more eggs" is 2 × 6 + 3 = 15 eggs. "2 boxes that each hold 6 eggs and 3 apples" is 2 × (6 + 3) = 18 items. Parentheses show what belongs together.
