SHADE THE HUNDRED GRID

Name: ..... **Date:** .....

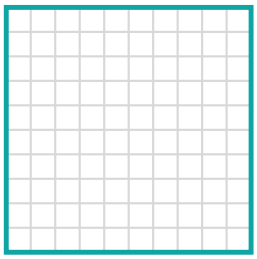

Percent means "out of 100". Each grid has 100 squares. Shade the percent, then write it as a fraction over 100 and as a decimal.

1. 25%

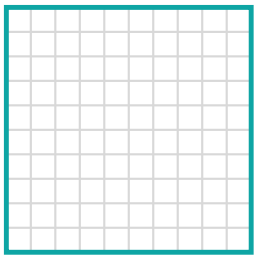

/100 =

2. 60%

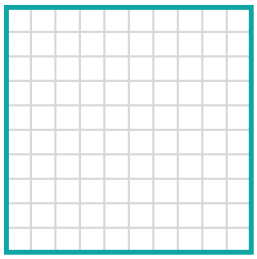

/100 =

3. 7%

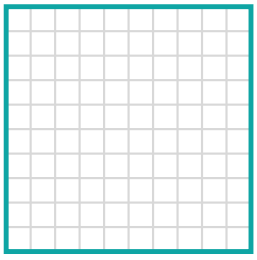

/100 =

4. 45%

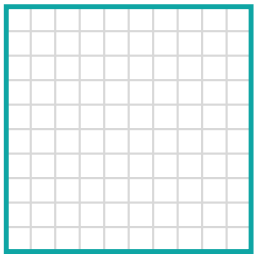

/100 =

5. 90%

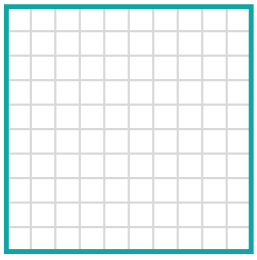

/100 =

6. 12%

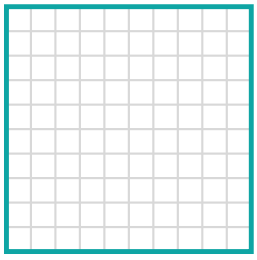

/100 =

7. 50%

/100 =

8. 33%

/100 =

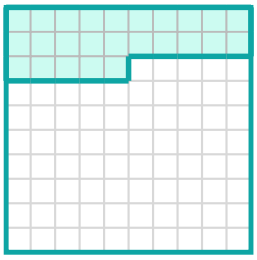

Worked example: 37% means 37 out of 100: shade 37 squares (three full rows and seven more). As a fraction it is 37/100, as a decimal 0.37.

SHADE THE HUNDRED GRID ANSWER KEY

Name: ..... Date: .....

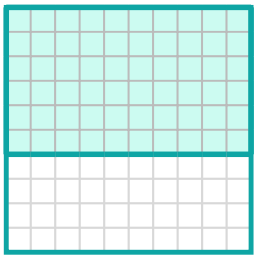

Answer key: shaded grids and the fraction and decimal for each percent.

1. 25%

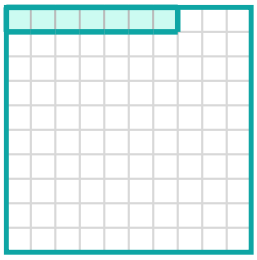

$\frac{25}{100}$ = 1/4 = 0.25

2. 60%

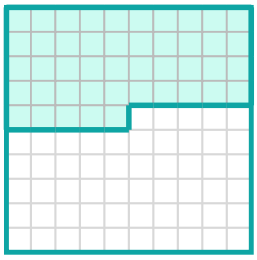

$\frac{60}{100}$ = 3/5 = 0.60

3. 7%

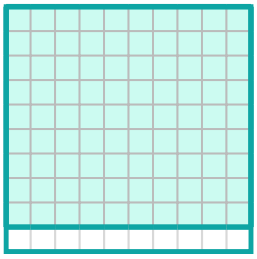

$\frac{7}{100}$ = 0.07

4. 45%

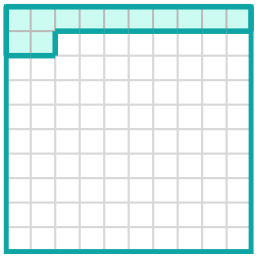

$\frac{45}{100}$ = 9/20 = 0.45

5. 90%

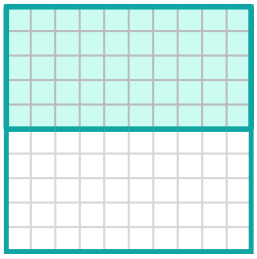

$\frac{90}{100}$ = 9/10 = 0.90

6. 12%

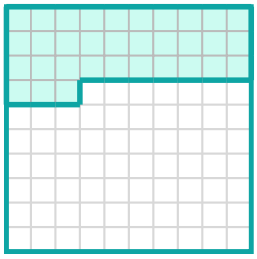

$\frac{12}{100}$ = 3/25 = 0.12

7. 50%

$\frac{50}{100}$ = 1/2 = 0.50

8. 33%

$\frac{33}{100}$ = 0.33

Worked example: 37% means 37 out of 100: shade 37 squares (three full rows and seven more). As a fraction it is 37/100, as a decimal 0.37.
