TIPS AND SALES TAX

Name: ..... **Date:** .....

Tips and sales tax are percents ADDED to a price. Find the percent of the price, then add it on. For 15%, find 10% and add half of it again.

1. A meal costs $40. Leave a 15% tip.

Tip: ____ Total: ____

2. A pizza delivery is $20. Tip 20%.

Tip: ____ Total: ____

3. A book costs $12. Sales tax is 5%.

Tax: ____ Total: ____

4. A game costs $50. Sales tax is 8%.

Tax: ____ Total: ____

5. A haircut is $30. Tip 10%.

Tip: ____ Total: ____

6. Shoes cost $75. Sales tax is 8%.

Tax: ____ Total: ____

7. Lunch for the team is $60. Tip 15%.

Tip: ____ Total: ____

8. A backpack costs $25. Sales tax is 8%.

Tax: ____ Total: ____

Worked example: dinner is $80 and the tip is 15%. 10% of 80 is 8, 5% is 4, so the tip is $12 and the total is 80 + 12 = **$92**. Tax works the same way: $50 with 8% tax is 50 + 4 = $54.
