COMPLETE THE PERIODIC TABLE

Name: ..... **Date:** .....

Use the tasks below the table. You will need coloured pencils.

PART 1: THE TABLE

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18
1	1																	2
2	3	4											5	6	7	8	9	10
3	11	12											13	14	15	16	17	18
4	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36
5	37	38	39	40	41	42	43	44	45	46	47	48	49	50	51	52	53	54
6	55	56	57–71	72	73	74	75	76	77	78	79	80	81	82	83	84	85	86
7	87	88	89–103	104	105	106	107	108	109	110	111	112	113	114	115	116	117	118

TASKS

1. Write the symbol of each of the first 20 elements in its square (the atomic numbers are printed).
2. Colour the metals (left of the thick staircase line) one colour and the non-metals (right of it) another. Hydrogen is a non-metal.
3. Label these families on the table: alkali metals (group 1), halogens (group 17), noble gases (group 18), transition metals (groups 3 to 12).

PART 2: GROUPS AND PERIODS

1. The rows of the periodic table are called _____ and the columns are called _____.
2. Sodium (11) is in group _____ and period _____.
3. Elements in the same group have the same number of _____ electrons, so they react in similar ways.
4. The elements in group 18 hardly react at all. They are the _____.
5. Fluorine, chlorine, bromine and iodine are in group 17. They are the _____.
6. The element with atomic number 12 is _____ (name); it is in period _____.

metals metalloids non-metals thick line = metal / non-metal stair

Symbols of the first 20 elements in order: H, He, Li, Be, B, C, N, O, F, Ne, Na, Mg, Al, Si, P, S, Cl, Ar, K, Ca. Metals are left of the staircase (plus the transition metals in the middle), non-metals to the right of it, and the metalloids boron, silicon, germanium, arsenic, antimony and tellurium sit along the line. Hydrogen (group 1) is a non-metal.

PART 2: GROUPS AND PERIODS

1. periods; groups 2. 1; 3 3. outer (valence) 4. noble gases 5. halogens 6. magnesium; 3
